

Enhance the pleasure of ownership and protect your investment

The Autoglym Protection system offers a unique and realistic opportunity to keep your car in top condition for as long as you own it, up to 5 years. Specially treated surfaces maintain appearance to give miles of pleasure and retain re-sale value.

With Autoglym Protection you can drive away confident in the knowledge that your car has been prepared using the finest products in the world.

Benefits of the Autoglym Protection system will continue for as long as you own your car, enhancing pride and pleasure of ownership and future value.

Autoglym Protection is currently available ONLY in UK and Ireland through authorised stockists.

The value of your car in years to come can depend greatly on cosmetic condition. The Autoglym Protection system is unique in taking long-term care of the cosmetic condition of your car

The way your car is cared for, from day one, will have significant influence on maintaining its long term, top condition and maximum re-sale value. It makes sense to ensure that both your investment and pleasure of ownership are properly safeguarded.

Under the Autoglym Protection system special care is taken by trained technicians to prepare your car to the highest standards.

From bumper to bumper, inside and out, the finest Autoglym treatments are used to prepare your car for delivery to you in pristine and protected condition.

Paintwork protection - Extra protection for paintwork, upholstery, carpets and glass

All exterior paintwork is treated to a unique protective coating to enhance shine and ensure maximum resistance to environmental hazards, even the severest winter weather. The glossy water-repellent coating is easier to keep clean and maintains a superb deep gloss shine.

Upholstery protection - Extra protection for paintwork, upholstery, carpets and glass

Upholstery (fabrics, leather) and carpets are treated with a complex waterproof coating to seal out moisture and resist staining. Accidental spillage simply beads on the surface, whilst dust and sticky marks are easily removed.

Glass treatment - Extra protection for paintwork, upholstery, carpets and glass

The windscreen and wiper systems are cleaned and prepared to ensure extra smooth operation and clarity, with all external windows coated to greatly improve wet weather visibility and safety. The washer reservoir is then charged with a cleaning booster.
